Professional Summary

Data Analyst with hands-on experience as a Junior Data Analyst at Taxpert. Skilled in Python, SQL (MySQL), Excel, Power BI, DAX, Power Query, Pandas, NumPy, and Matplotlib for data cleaning, ETL, exploratory data analysis (EDA), dashboard development, KPI reporting, statistical analysis, and business intelligence. Successfully cleaned and transformed **15,000+ business records** and developed **5+ interactive Power BI dashboards** to support data-driven business decisions.

Professional Experience

Junior Data Analyst

May 2026 – Present

NJN TAXPERT PRO ACC, Kozhikode

- Processed and transformed **15,000+** business records using Python, SQL, and Excel, ensuring accurate datasets for reporting and analysis.
- Analyzed **15,000+** records through exploratory data analysis (EDA), identifying trends that supported data-driven business decisions.
- Designed and deployed **5+** interactive Power BI dashboards to monitor KPIs and provide real-time business insights.
- Improved data quality by validating and standardizing **15,000+** records, resolving missing values, duplicate entries, and data inconsistencies.
- Produced **5+** analytical reports and visualizations to support operational performance tracking and stakeholder decision-making.
- Streamlined reporting workflows by collaborating with cross-functional teams and leveraging Power BI automation to improve reporting efficiency.

Technical Skills

- **Programming:** Python, SQL (MySQL)
- **Python Libraries:** Pandas, NumPy, Matplotlib, Scikit-learn
- **Business Intelligence:** Power BI, DAX, Power Query
- **Data Analytics:** Data Cleaning, ETL, Data Validation, Data Modeling, Exploratory Data Analysis (EDA), Statistical Analysis, Data Visualization
- **Reporting:** Dashboard Design, KPI Reporting, Business Intelligence Reporting, Stakeholder Reporting
- **Business Skills:** Requirements Gathering, Process Improvement, Data Storytelling, Business Analytics
- **Tools:** Microsoft Excel, Git, GitHub

Projects

Logistics Performance Dashboard

Power BI | Python | SQL | Excel

- Engineered an interactive dashboard tracking delivery performance, SLA compliance, and operational KPIs.
- Automated ETL workflows and cleaned logistics datasets using Python, SQL, and Excel.

Customer Churn Analysis Dashboard

Python | SQL | Power BI

- Investigated customer behavior through exploratory data analysis to identify churn patterns and retention opportunities.
- Created Power BI dashboards to visualize customer trends and business insights.

Weather Analytics Dashboard

Python | API | Power BI

- Collected weather data using APIs and analyzed AQI, rainfall, humidity, and temperature trends.
- Designed interactive dashboards to visualize weather patterns and environmental insights.

Air Quality Prediction

Python | Machine Learning

- Built and evaluated a machine learning model for air quality prediction using historical environmental datasets.
- Applied data preprocessing, feature engineering, and model evaluation techniques using Python.

Education

Bachelor of Technology (B.Tech) in Computer Science and Engineering

APJ Abdul Kalam Technological University (KTU)

2021 – 2025

Higher Secondary

GHSS Valapattanam

2019 – 2021

Certifications

- Google Data Analytics Professional Certificate – Coursera
- Data Analyst Job Simulation – OneRoadmap
- Data Science Internship – Padelab
- CCNA Training Completion – BSoft Technologies
- Machine Learning for Engineers
- Tata Group Cybersecurity Analyst Job Simulation
- Claude 101

Leadership & Activities

- Active NSS volunteer involved in community service initiatives.
